BIOGRAPHY

I have a wide array of interests and experiences. I've lived abroad, in Brazil, for 5 years, working in marketing and as an account manager, launching my own company alongside. I'm a people person with a keen ability for web-related stuff. My skill set include a strong analysis capacity, client-driven mindset, and experience with team management and leadership. I'm a valuable asset in any team, being able to naturally mediate conflicts.
